

Title: Aquatic Ecologist/GIS Analyst

Skills: Aquatic Ecology, GIS Applications in Natural Resources

Date: 8-18-08

Length: Full Time

Pay Rate: Commensurate with Experience

Job Description:

Reward Yourself - Work for a Company that Appreciates You.

Do you enjoy challenging work and a variety of project scenarios?

Are you interested in applying your talents to formulate innovative solutions for the water resource and energy sectors?

If so, Gomez and Sullivan Engineers would like to hear from you. Our company has an immediate opening for an Aquatic Ecologist/GIS Analyst in our Weare, NH office. Our Weare location offers a reasonable cost of living, as well as opportunities to suit any kind of lifestyle whether it be skiing or hiking in the White Mountains, relaxing by our beautiful seashore or enjoying the amenities of metropolitan Boston. Our offices have a business-casual work environment with a very personable team of engineers, scientists, technicians, programmers, and support staff. Gomez and Sullivan also conducts annual company meetings where employees have the opportunity to brainstorm together and discuss the present and future of our business.

Gomez and Sullivan seeks a committed, detail-oriented individual who will be able to utilize their knowledge and experience to fulfill our clients' immediate and future needs. Water resources are key elements of our nation's environmental conservation and renewable energy production sectors. Environmental Impact Statement preparation, instream habitat assessments, stream restoration, assessment of habitat improvement projects and fish passage facilities as well as water quality monitoring and assessment are only a few of the exciting services Gomez and Sullivan offers to our clients. As an Aquatic Ecologist/GIS Analyst you will use your current talents and develop additional skills as you work alongside our experienced staff to formulate innovative solutions specific to our clients' needs.

Responsibilities

- Perform technical analysis and prepare reports for fisheries, wetlands and water quality studies
- Prepare Environmental Assessments and Environmental Impact Statements.
- Field assignments including: site reconnaissance, habitat mapping, instream flow analysis, reservoir littoral zone habitat analysis, and evaluation of upstream/downstream fish passage needs.

- GIS/GPS data acquisition, normalization and analysis, database design and maintenance, production of GIS datasets, and cartographic output to support various natural resource applications

Qualifications

B.S. in physical or biological sciences with training in GIS. 4-10 years experience in a job with related responsibilities to this assignment, including application of GIS toward natural resource applications. Applicants must be proficient with the use of ArcGIS software. Excellent oral and written communications skills required.

Benefits

Gomez and Sullivan offers a competitive benefits package including medical for all regular full-time employees and their family, long-term disability, education assistance programs, plus 401K and profit sharing. We are a business with a firm belief in treating our team members as well as we treat our clients, and we maintain a personable, positive work environment.

Company Profile

Gomez and Sullivan Engineers, P.C. was established in 1993, and currently has offices located in Utica and Williamsville, NY, and Weare, NH. We specialize in engineering, environmental science, and data management solutions for the water resource and energy sectors. A brief summary of our services includes engineering design, watershed studies, ecological investigations, environmental impact statements, permitting and licensing, information technology and management solutions, Enterprise GIS, CAD/GIS/GPS, and facilitation of collaborative planning processes.

Gomez and Sullivan is an Equal Opportunity Employer.

If you qualify and would like to join our team, please submit your resume and cover letter to:
